Municipal

Your decision now, will contribute to the well-being of your group & your community!

Highlights of No-Cost Covid-19 Testing:

- This program is quick to get started and results are accessible in 36-48 hours online
- A huge benefit of this program – Family members are also eligible to be tested
- 100% accurate with no false positives/negatives and if positive the variant is identified
- Single page enrollment form to begin the program & there is no money paid at any time
- The results of the test can be printed off and shown as documentation when needed
- Know that your workforce, church, school or group is healthy and not spreading the virus
